***DETAILED ACTION***

1. This action is responsive to communications: original application filed on 11/19/2000.
2. Claims 1-34 are currently pending in this application. Claims 1, 11, 21 and 31 are independent claims.

***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1- 30 drawn to method for facilitating the display of information of a document, classified in class 715, subclass 513.
  - II. Claims 31-34 drawn to method for rendering a graphical user interface, classified in class 345, subclass 763.

The inventions are distinct, each from each other because of the following reasons:

4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as jumping to a predetermined location within the document corresponding to a graphical element selected by a user and displaying information of the predetermined location, and invention II has separate utility such as in response to a user selecting a first tab, displaying, in a second display region, a portion of a first section of the electronic document associated with the first tab. See MPEP § 806.05(d).

Art Unit: 2176

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, and vice versa, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
